## MOCK INTERVIEW

### **Students attended the mock interview in Principal's Room on 24/02/2022**

On February 24, 2022, the Training and Placement Cell conducted a mock interview. The mock interview was a practise interview for a job that mimics the conversation a student would have with a hiring manager in the real world. Through this practice interview, students can test out their answers to difficult problems and refine their strategies in this kind of environment. Furthermore, a practice interview helped in the development of interview strategies, enhances students' communication skills, gets them ready for challenging questions, and lessens the nervousness that many people have prior to an actual interview.

## CAREER IN SCIENCE

**Career in Science handled by Mrs. S. Mohanapriya on 13/07/2021 at Varuthi Ammal Seminar Hall**

A Career in Science (Job offers in Science field) event was held by the Career Guidance Cell on July 13, 2021, in the Varuthi Ammal Seminar Hall. 350 students enthusiastically participated in the event. The workshop's resource, Mrs. S. Mohanapriya, Head of the Department of Chemistry, talked about the various career paths available in the science field. She stated that the Science degrees come in a variety of forms; they are not limited to engineering or medical science. The Science stream offers a dynamic work environment with countless specialisations and opportunities to explore. It also offers opportunities in innovation and technology, along with tremendous prospects in research. Through this training, students have gained knowledge about the opportunities available in the scientific field.

## ENGLISH LANGUAGE DEVELOPMENT

### Listening Skill: English is Easy

Link: <https://youtu.be/bk4lhVuy-cl>

E-videos are an excellent way to teach our students English in a "real-life" setting, and the graphics will make it easier for them to comprehend the content. Students benefited from watching videos by learning about various dialects. Keep an eye out for the gestures, body language, and facial emotions employed in various cultures.

This assisted students in "filling in the gaps" by providing them with the visual component and contextual conversation or speech to help them fill in the blanks and help them contextualise the new language if there are any unfamiliar phrases, terminology, or idioms while watching a video.

## TEST OF KNOWLEDGE

Test of Knowledge posts every day to help our students improve their general knowledge. General knowledge is a crucial component of learning because it not only aids in children's information acquisition but also helps them become aware of global events. Early acquisition of fundamental knowledge alters a youngster's mental and intellectual development. Additionally, it will foster social awareness and enhance youngsters mental growth, civil capacities, and civic sensibilities.

Students who are well-versed in multiple areas are more capable of speaking on a range of topics, which enhances their ability to converse and helps them do well in group discussions, admission examinations, school exams, and interviews. They gain confidence as a result and have an advantage over others.
